

## Child Identification

Have you ever felt a moment of panic when your child isn't in sight? This is normal, however unfortunately, children can and do go missing in the blink of an eye. This can happen anywhere, and anytime. Are you prepared?

One of the most important tools for law enforcement when searching for a missing child is an up-to-date, child identification sheet. This is a simple yet effective tool to help families maintain descriptive information about their children.

The City of Kawartha Lakes Detachment of the OPP is offering citizens in OPP patrolled areas, the opportunity to attend the detachment to complete a child identification sheet, which will include some personal information and fingerprints. The sheet is yours to keep and could save valuable time if your child ever did go missing. By completing this information, it can be shared more quickly to assist with the safe recovery of missing kids.
